

Churches have Important Calls too

Pastors and church staff are always needed. We understand people have needs 24.7.365, and look to the church for assistance. Let us handle those calls when you are not staffed to answer calls. We can let your church family know we can reach you in their time of need. We can reach out to you in a variety of ways.

Text Messaging:

- We send a text of the message to your cell phone. You simply reply to the text to confirm you received the message
- If message is not confirmed, we will continue to relay message via phone call, etc. We can proceed down a list of staff, if necessary.

Email Delivery:

- If text messaging is not for you, we can reach you by email. You have the option to reply to the email and we will cancel further dispatching.
- For non emergency calls, the emails will be in your inbox for review the following business day.

Web Portal Message Retrieval:

- Your office staff can login to our web portal and view or print all messages for the last 365 days.
- Access new messages holding for a return call
- Access to after hour messages, with information on how and to whom they were relayed.

On Call Scheduling via Web Portal:

- Your office staff is in control of the on call schedule 24/7/365, no more faxing or emailing schedules
- Login to our web portal using your secure login/password
- Enter which staff member is on call and change if needed
- All changes are automatically updated in our system

Need More?

Automated Voice Mail for Church Information:

Let us save you time and provide important church events via an automated line. Customized recordings available to inform members of church events, service times and locations!

Customized Reporting:

Customized reports are available. If you need documentation of your calls, we can make the information you need available via email or download on our Web Portal.
